

Little League **BASEBALL** Age Eligibility Changes

Revised 12/22/2014

As a result of this recent adjustment to the implementation strategy, effective immediately, any player born on or after January 1, 2006 who will **turn the ages of 4-9 during the 2015 calendar year** will be eligible to participate in a local Little League program and **will use the new age determination date of December 31 for the remainder of their Little League career**. Players will still be assigned to a division based on local league divisional structure.

Consequently, players born prior to **January 1, 2006** will continue to utilize the current age determination date of April 30 for the 2015, 2016, and 2017 seasons. In 2018 all players born prior to January 1, 2006 will begin utilizing December 31 as their age determination date. The majority of concerns will surround the fact that a 2015 league age nine (9) year old will be 10 in 2016, 11 in 2017, but in 2018 will effectively be league age 13 and will advance out of the major league division. All players represented within the chart below will all use the December 31 date beginning in the 2018 season.

As stated, with this implementation strategy adjustment the impact on our players will be reduced, with the exception of a marginal impact on players currently participating in the very early stages of their Little League career. Furthermore, our continued focus on fun, fitness and fundamentals at the Tee Ball Division will assist local leagues as they look to provide a smooth transition to the Coach/Machine Pitch divisions of play while still developing a passion for the game as well as focusing on skill development.
